

HOSPITALITY, NATURALLY.

Premium hotel guest essentials

Wet and dry amenities · linen · OS&E

Thoughtfully presented for hotels and resorts.

THE APPROACH

Materials matter. So does performance.

A thoughtful approach starts with the whole product: the material, its packaging and how the hotel uses it.

01

Packaging

Consider paper-based formats and simpler packaging for appropriate amenity categories.

02

Materials

Review alternative materials alongside durability, hygiene and guest expectations.

03

Refills

Explore dispenser and refill formats for bathroom care ranges.

04

Performance

Balance durability, hygiene and guest expectations in everyday hotel use.

BUILT AROUND YOUR PROPERTY

Select formats and packaging that suit your standards, guest expectations and day-to-day operations. Specifications and environmental claims are confirmed for the selected range.
